

*The instructions below describe how to import our job options*

To import job options InDesign go to:  
**File > Adobe PDF Presets > Define**

Select the **PNW\_Offset-Digital.joboptions** file from the location where you save it to and **click load**.

[to install our signage job options, repeat the above step and select **PNW\_Signage.joboptions**]

**You will only have to install the preset file into InDesign once.** From then on it will be available whenever you want to export a Print Ready PDF.
